W.K. Kellogg Foundation: Building an Aligned Learning and Evaluation System Using Collaborative and Empowerment Approaches to Evaluation

OVERVIEW

Concepts Guiding Overall Approach

- Improvement
- Inclusive enterprise wide
- Evidence-based
- Capacity Building
 - helping people help themselves
 - strategic thinking
- Organizational Learning individual, team, & community
- Accountability
- Sustainability

Common Techniques

- Participation, Cooperation & Collaboration
- Program Theory Theory of Change Theory of Action (Logic Models and Work Plans)
- Data Collection, Analysis, Dialogue & Reporting
- Monitoring
 - Baseline, Milestones & Goals
- Feedback Loops

Roles

- Collaborative Role consult and collaborate
- Empowerment Role critical friend or coach
 - Overlapping Role: helping people help themselves

Accountability

- Did you do it?
 - Internal
 - External
 - Short term, intermediate, and long-term

W.K. Kellogg's Approach to Learning and Impact: Building an Aligned Learning and Evaluation System

Linh Nguyen W. K. Kellogg Foundation

American Evaluation Association, October 15-18, 2014, Denver, CO

WKKF's Learning & Impact Practice

Learning and Impact's mission is rooted in our core values, first among them:

"We believe in helping people help themselves through the practical application of knowledge and resources to improve their quality of life and that of future generations."

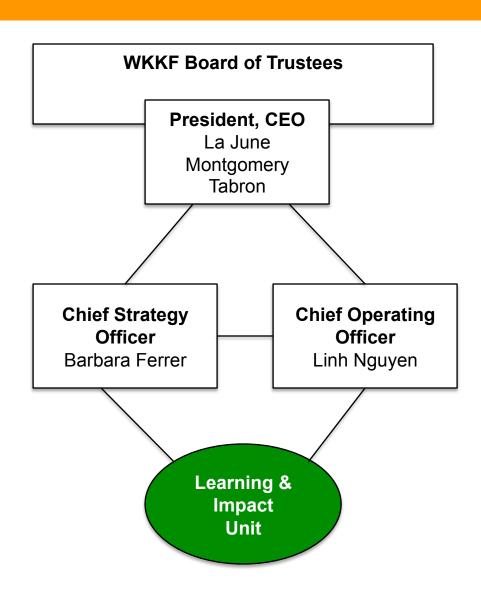

- Learning and Impact represents the W.K. Kellogg Foundation's commitment to integrated and collaborative planning, measurement and evaluation.
- Our aim is to optimize the foundation's programmatic investments in partnership with grantees and others through the use of data, insight, and learning to improve the lives of vulnerable children.

Core Roles

			Strategic S	Scope			
1	Gover- nance	Policy Foundation- Governance Wide Strategy		Common Dashboard	Performance Accountability		
2	Methods and Tools	Integrated Data and Planning Measure		Multi-Faceted Evaluation	Insight and Learning		
3	Capacity Building (Internal & External)	Competency Development	Knowledge Sharing	Technical Assistance	Intentional Investments		
4	Infrastructure	Organizational Architecture	Technical Architecture	Data Architecture	Knowledge Architecture		

Tightly Linked Leadership

W.K. Kellogg Foundation: Embedding Practice into Place - Using a Theory of Change and Action

Tony Berkley W. K. Kellogg Foundation

Pennie Foster-Fishman Michigan State University

American Evaluation Association, October 15-18, 2014, Denver, CO

An Integrated Approach to Planning, Evaluation and Research

- Four target places: Michigan, Mississippi, New Orleans, New Mexico
- A Collaborative Process
 - The Place Team
 - Place-Based Evaluation Team
- Tools and Templates
 - Theory of change
 - Theory of action
 - Logic Models
 - Work Plans

Defining our Terms

Theory of Change

- How do we think change happens?
- What will it take to promote change within this place?
- What will emerge as a result of these changes?

Theory of Action

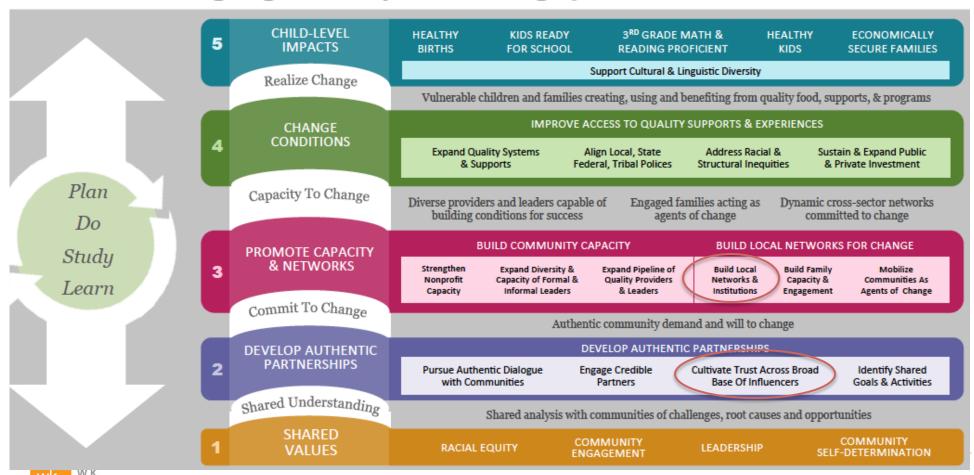

- Part 1: Logic Models
 - What will we DO to promote this change process in order to achieve our targeted ends?
 - How will we DO this?
 - What outcomes will emerge as result of these efforts?
- Part 2: Work Plan
 - What specific funding and other activities will we do as a result of this planning

Place Team Theory of Change

Emerging Theory of Change

KELLOGG FOUNDATION

Key Strategic Review Questions for Logic Model

- Do our proposed strategies "make sense" given our current context and prioritized indicators?
- Are the proposed strategies sufficient for producing our targeted outcomes? If not, what needs to be added or taken away?
- Are we trying to do too much? If so, what needs to taken away?

Lessons Learned

- Mutual creation of a TOC within a team is valuable
 - Makes explicit the implicit practices
 - Promotes shared language and shared understanding
- Shifting to an outcomes focus and aligning strategies around targeted priorities – challenges traditional grant making approaches.
- Creating safe space for critical reflection and critical inquiry is essential.
- It takes time and effort to be strategic!

W.K. Kellogg Foundation: The Use of CARES's Community Commons Tools to Provide Baseline and Progress Data

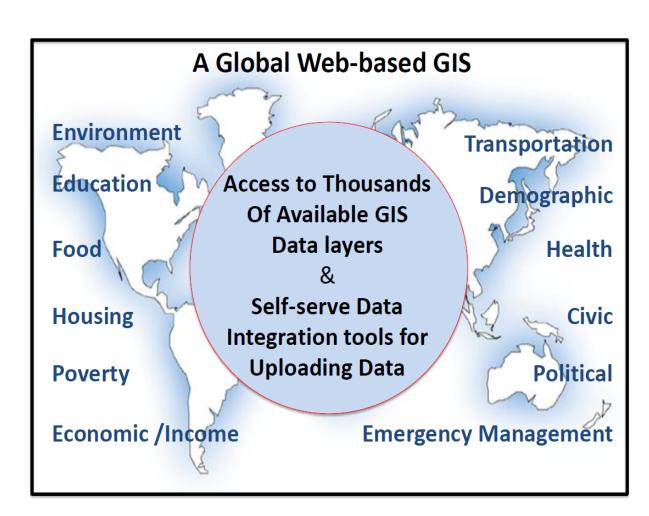

Kimberly M. James W.K. Kellogg Foundation

Change in Total Population

According to the U.S. Census Bureau Decennial Census, between 2000 and 2010 the population in the report area grew by 34551 persons, a change of 19.78%. A significant positive or negative shift in total population over time impacts healthcare providers and the utilization of community resources.

W.K. Kellogg Foundation: The Use of Webinars and Face-to-Face Evaluation Training to Build a Common Language and Contribute to a Knowledge Management System

David Fetterman Fetterman & Associates

American Evaluation Association, October 15-18, 2014, Denver, CO

Commitment: Alignment & Education

- Aligning learning and evaluation systems
- Building capacity
- Developing and implementing an educational program to ensure the use of a common evaluation language or lexicon
 - Internal evaluation capacity building, e.g. webinars and face-to-face evaluation training
 - Board, Program Officers, and Staff Members
